Vaccines for Pony Club Camp 2026
Camp dates are Sunday July 26th to Friday July 31st 2026

The recent rule changes have made vaccine compliance complicated, especially on racecourses.

We have tried to simplify and summarise them here – but you may need to check with your own vet, or send us a copy of ALL the passport vaccination pages and Lindsay Brazil is happy to check.

The last day of CVFH camp on the racecourse is Friday July 31st 2026.

Any horse or pony attending camp must have:

An up to date vaccination history* AND have had a booster within 6 months and 21 days of camp but not within 7 days of the first day of camp.

So this booster must have been between 10th January 2026 and 18th July 2026

OR

Have started a new course of vaccines and have had as a minimum requirement the initial 2 vaccinations (V1 and V2).

**In these circumstances V2 Must have been between the 1st February and 18th July if you have not yet had V3
(this is based on being no more than 180 days prior to the last day of camp but being given no later than 7 clear days prior to the start of camp. Note V1 to V2 interval must be 21-60 days)**

The horse may also have had the initial 3 vaccines in the course (V1, V2 and V3).

If you have had V3 it must have been between 10th January 2026 and 18th July 2026.

Please note that horses who have started new courses from **1st January 2024** need to have had intervals that comply with the new BHA interval rules:

V1-V2 21-60 days (previously 21-92 days)

V2-V3 120 – 180 days (previously 150- 215 days)

*Please make sure you know what an up to date vaccination history is and that your horses passport clearly documents this.
