75 min sessions shared with a group of 3 people

Members working towards their C+ and B / B+ test will take priority but this rally is open to all over 8 yrs. of age.

It is really important for riders to be straight and balanced in the saddle. This helps the horse to perform well, it keeps the rider secure in the saddle, helps the rider to learn and progress and straightness is a requirement at all Pony Club tests.

Come and find out how straight you are on "Tallulah" the Simulator at Tilefield Equestrian. As part of these sessions you will get an analysis of your position. You will get both video feedback and you will see the information from the sensors on the simulator.

Amanda will help you to feel and understand where you are asymmetrical and you will feel the difference in your body when you are straight. Focus will be placed on the position and movement of the pelvis in the saddle and you will also learn about the position of your shoulders, backs, knees, ankles and feet depending on the needs of each individual rider. Video feedback will be used as this can help you to learn.

To get the best of out of these sessions it would be extremely beneficial to do all 3 so there is a discount if you can sign up to all sessions in advance.
