Ponies should be placed inside their trailers/horse boxes during break periods. Ponies will need a haynet over the lunch break and a bucket for water. Hay can only be fed inside the transport and all droppings must be collected. A grooming kit could be useful.

Parents are responsible for the well being of ponies and children when not under instruction and the tidiness of the parking area.

Smoking/vaping is not allowed on site.

Mini campers or their parents are not allowed in the maxi camping or stable areas unless they are visiting siblings or are with a coach or member of camp staff.

All riding is on a surface. Members will do some of these activities, flat work, games, drill ride, pole work, ride out, SJ and arena XC/other suitable activity. In addition there will be a dismounted care session each day. The emphasis is on learning in a safe environment with enjoyment.

Lead rein children must be accompanied by a competent and responsible leader aged 16yrs+ and just-off lead rein or those who cannot steer or control the pony very well must also have their own "leader" on hand who is prepared to assist the child if they are struggling particularly if requested to do so by the coach.

Parents are asked to help fetch and carry for the coach and ride e.g. drinks at break time, moving show jumps, putting out games equipment etc.

Mini campers will need a packed lunch.

Non-riding children must be kept under close parental supervision at all times.
