

Fernie selection approach

Sometimes for qualifying competitions, we need to select and group members into teams.

A strong philosophy within the club is that each of our members are following their own development path.

We ask parents to support our members to always be supportive and encouraging to ALL team members.

This is particularly important whatever their experience and particularly if other members' days don't go according to plan.

In addition to the National and Area 6 eligibility criteria, our selection is:

- Being an active member of the club
- Recent competition results at the same level
- Assessment that the combination is ready to complete at the level

We are proud that in recent years the support that our members and parents have shown to each other whatever the team selection decision has been outstanding.
