

Woodland Hunt Pony Club

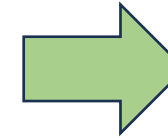

Rally Booking Process

Visit <https://woodlandpc.entrymaster.online>

Set up your online profile

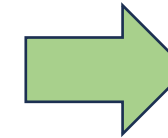

You will need to add: Parent details, member details, horse details. This will then create drop down options for your bookings. It also means we can easily add and change your booking information where required.

Please make sure you add your phone number (we need this for emergency details) and use the name of the horse as on its passport. You will need your membership number.

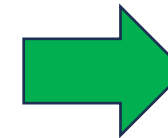

Parent details must be added in box 1 of each booking. Members details and horse details follow in the next sections. If you leave things in your basket and do not checkout you will not receive the place on the rally.

Anything invitation only is only to be booked by those who have been asked to do so. You will know if you it applies to you or not!

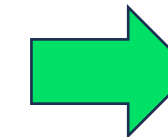

If the rally is full there may be an option to join a wait list. Wait list places are accepted once groups have been put together if we have space in the right group. Sometimes rallies close early if they are full.

If accepted, you will be notified via email from EntryMaster and a PayPal invoice issued.

If you need to change a horse, rider or cancel your booking (before the closing date) please email woodland@pcuk.org

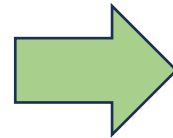

Refunds are issued only if you withdraw before the closing date and only once the event has taken place

Read the fixtures list and see what events are open for booking

The Branch competitions we organise take bookings via www.horse-events.co.uk

After the rally we verify your attendance, and this booking information is 'sent' to your Pelham membership profile. It is therefore important that the information on your booking is correct. Please do not turn up to rallies on different ponies or with different riders unless it has been pre-approved.
